## 1. Brief of Foshan Enterprises and Their Cooperation Demands

(1) GUANGDONG WANLIAN PACKAGING MACHINERY CO., LTD. NO. 001

**Introduction:** Founded in 1997, Wanlian mainly produces large-scale, whole-set corrugating paperboard production lines. Now Wanlian has 200 employees. The sales volume in 2014 reached 100 million yuan, a 12% increase compared to 2013. Wanlian has various production lines and single machines of corrugating paperboard, including 28 production lines, 56 product varieties, and 102 product specifications, all of which are independently innovative products with the support of patent technologies. Our products, mainly sold to South and East China, have a market share of more than 30%. The products are also exported to other countries. In Southeast Asia we have a market share of over 10%. Wanlian passed the authentication of the quality management system of ISO9001: 2008 in 2005.

Website: [www.wljx.com](http://www.wljx.com)

**Demand:** In order to improve efficiency and quality of the production as well as to reduce the cost, we hope to introduce from German companies some key technologies of intelligent manufacturing of corrugating paperboards and laser, as well as application and development of AGV robots in packaging. We look forward to long-term cooperations through ways such as equipment procurement, technology transfer or joint-venture production.

**Contact Information:** LUO WEIBIN (+86 13902838665)

LUO YANLAN (+86 13924886028)

E-mail: [13902838665@139.com](mailto:13902838665@139.com)

**(2) Guangdong Yizumi Precision Machinery Co., Ltd. NO. 002**

**Introduction:** Guangdong Yizumi Precision Machinery Co., Ltd is a hi-tech enterprise focusing on design, R&D, production, sales and services of molding machines. High-precision injection molding machines, high-performance casting machines for aluminum-magnesium alloy and high-quality rubber machines are the main products of Yizumi. Our production bases cover over 200,000 square meters and we have over 2000 employees.

In 2011, Yizumi purchased the entire intellectual property rights of HPM which was a century-old US company and it became a milestone in the course of Yizumi's international development. In 2015, Yizumi (Ticker: 300415) successfully launched an IPO on the A-share market of Shenzhen Stock Exchange, becoming the first compression molding equipment manufacturer that got listed on ChiNext.

Yizumi now has several service centers and more than 30 overseas distributors, with business reaching nearly 50 countries and regions. Yizumi also plans to set up additional overseas factories in India, South America, Europe and other important markets so as to provide better products and services for customers worldwide.

Website: [www.yizumi-group.com/](http://www.yizumi-group.com/)

**Demand:** Servo control technologies; Plastic molding techniques; Injection molding machines and peripheral equipment; Designers and application engineers specializing in molding machines.

**Contact Information:** LIAO CHANGQING (+86 13702438718)

E-mail: [liaocq@yizumi-group.com](mailto:liaocq@yizumi-group.com)

**(3) Guangdong Weili Machinery Industry Co., Ltd. NO. 003**

**Introduction:** Founded in Sep. 2010, our company specializes in the R&D, manufacturing and marketing of machinery, intelligent equipment, industrial robots as well as software design. Currently we have over 280 employees and our annual turnover exceeded 50 million yuan in 2014. Through independent research and development, we produce a variety of control equipments that are used in wood processing, including but not limited to wood-working pressing machine, wood-working milling machine, wood-working auxiliary equipment, dust-cleaning apparatus of environmental protection equipment and painting protection equipment. Our products have passed the authentication of the quality management system of ISO9001 and have been sold to over 70 countries. We have over 200 distributors that cover the first and second-tier cities of China and we are one of the Top 500 manufacturing enterprises of Guangdong Province.

Website: [www.weili-china.com](http://www.weili-china.com)

**Demand:** In order to improve the level of automation of our production lines and expand our business to Europe, we look forward to cooperating with European robot companies as we are in urgent need of wood-working polishing robots. We would love long-term cooperations through ways such as equipment procurement, technology transfer and joint-venture production.

**Contact Information:** HE PEILIU (+86 13702831306)

YUAN YUANQING (+86 18927786697)

**(4) Guangdong Wanchang Printing and Packaging Co., Ltd. NO. 004**

**Introduction:** Our company was founded in 1994. It has over 1000 employees currently and is a relatively large company in the printing and packaging industry in China. It is the biggest producer of beer labels with a market share of about 20%. Our business covers China, Southeast Asia and Central Asia, with the domestic market as the core. We produce 20 billion labels of various sorts annually. Our annual sales of 2014 exceeded 600 million yuan.

Website: [www.chinawanchang.com](http://www.chinawanchang.com)

**Demand:** In order to improve the quality of our products and better meet the demands of our customers, we urgently need to introduce anti-falsification paper printing technology from Germany. Furthermore, we are looking forward to cooperating with companies that design and manufacture universal components and basic spare parts such as proper bearing, high strength bolt and high precision gear. We hope for long-term cooperations through ways such as surrogate marketing, technology transfer and joint-venture production.

**Contact Information:** LIANG YAOYONG (+86 13902831235)

E-mail: [liangyaoyong2929@qq.com](mailto:liangyaoyong2929@qq.com)

**(5) Guangdong COMWIN Traffic Equipment Co., Ltd. NO. 005**

**Introduction:** Founded in 1972, Guangdong COMWIN Traffic Equipment Manufacturing Co., Ltd. is a company engaged in research and development, design, manufacturing, sales and services of special automobiles. The company has introduced advanced equipment and technologies from developed countries in Europe and America and built the most advanced assembly lines in China. It can produce 5,000 semitrailers and special vehicles annually and new products account for a share of 70% of the total output value. All the products are not only sold domestically but are also exported in bulk to countries and regions including Australia, New Zealand, Hong Kong, Macao, Taiwan and Southeast Asia, South America, North Africa and Central Asia.

Website: [www.yindao-cn.com](http://www.yindao-cn.com)

**Demand:** In order to improve the technology of our products and better meet different demands of our customers, we hope to cooperate with German companies which manufacture recreational vehicles, to learn from their new technologies and techniques, and to look for suppliers of spare parts, lightweight as well as new materials. We hope for long-term cooperations through ways such as spare parts procurement, technology transfer and joint-venture production.

**Contact Information:** PAN WEILAN (+86 13590653774)

E-mail: [pwl@ssf10.net](mailto:pwl@ssf10.net)

**(6) Guangdong Guansheng Plastic Co., Ltd. NO. 006**

**Introduction:** Founded in 2002, we specialize in manufacturing PVC calendared film, which is mainly utilized in household products like plastic package, decorative material, tablecloth, shower curtain and electrical tape. Our products are sold to mainland China, Russia, Turkey, Southeast Asia as well as other areas. We currently have over 700 employees and our annual turnover in 2014 exceeded 300 million yuan. Our products are ISO certified and were given the honors of “Famous Brand of Guangdong Province” and “Clean Production”.

Website: [www.guanshengpvc.com](http://www.guanshengpvc.com)

**Demand:** In order to enhance the quality of our products, we hope to cooperate with our peer enterprises in Germany, introducing equipment that scrapes the surface of PVC decoration film and technologies of manufacturing highlight and scratch-resistant PVC decoration film. We hope for long-term cooperation to gain mutual benefits through ways such as surrogate marketing, technological purchase and joint-venture production.

**Contact Information:** LIU JINZHU (+86 13928282277)

HE XIAOYUN (+86 13928211679)

**(7) Guangdong Rongwei Composites Co., Ltd. NO. 007**

**Introduction:** Founded in 1991, Guangdong Rongwei Synthetic Materials Co., Ltd. specializes in the development and production of rigid foam polyether polyol system, silicone surfactant and new complex plasticizer, which are widely used in a variety of fields, such as household appliances, furniture, architecture, solar energy and automobile. A set of strict silicone oil evaluation system and testing methods have been established. We can develop customized products for customers to meet their individual needs.

Website: [www.sdrongwei.com](http://www.sdrongwei.com)

**Demand:** In order to learn advanced technologies from Germany and improve the quality of our products, we hope to cooperate with German companies or research institutions and introduce technologies and equipment of soft foam stabilizer and rigid foam stabilizer. We hope for long-term cooperation through ways such as surrogate marketing, technology transfer and joint-venture production.

E-mail: [pwl@ssf5.net](mailto:pwl@ssf5.net)

**(8) Guangdong Province Shunde Entrepreneur Association (SDEA); Association of Hi-tech Enterprises, Shunde; Zhongtai Biotechnology Co., Ltd. , Guizhou NO. 008**

**Introduction:** Shunde Entrepreneur Association, one of the most influential and renowned entrepreneur organizations in Shunde, Guangdong Province, was founded by 108 business elites in Shunde in January 2009. Its membership covers leaders of private enterprises in the sectors of household appliances, furniture, mechanical equipment, electronic information, chemical industry, textile and clothing, packaging and printing, lighting, auto manufacturing, comprehensive service industry, real estate, financial investment, etc. The Club's chairman is Mr. Xu Tiefeng.

Zhongtai Biotechnology Co., Ltd. , Guizhou was founded with approval from China Food and Drug Administration. Housed on Chunhui Avenue, the company occupies an area of 56,000 m<sup>2</sup> in Guizhou Kaili Economic Development Zone and has a total investment of over 300 million Yuan. It mainly focuses on research, production and sales of blood products. Its annual production capacity reaches 500 to 800 tons of raw plasma. Currently, the company provides the following 5 types of products: Human Albumin, Human Immunoglobulin (pH4) for Intravenous Injection, Human Immunoglobulin, Human Hepatitis B Immunoglobulin and Human Tetanus Immunoglobulin.

Website: [www.gzztsw.com/](http://www.gzztsw.com/)

**Demand:** Introducing technologies of and talents in refining traditional Chinese medicine (TCM), refining post-wastewater treatment, formulation of pharmaceutical dosage; Looking for partners and cooperation projects of domestic-market-oriented healthcare management.

**Contact Information:** XU TIEFENG (+86 13825500003)

E-mail: [ss@ssf5.net](mailto:ss@ssf5.net)

**(9) Foshan Tongbao Huatong Controller Co., Ltd. NO. 009**

**Introduction:** Founded in 1966, we focus on temperature controller manufacturing and actively expand to the area of high-tech precision materials. Our major products are various types of temperature controllers, precision materials, precision composites, starters, protectors and motor spring. Currently we have over 3,000 employees and our annual turnover of 2014 exceeded 1.3 billion yuan. We have certifications like ISO9001, ISO9002, ISO14001, TS16949, CQC, VDE, TUV and UL. Our clients are mainly domestically and internationally well-known enterprises such as Siemens, Electrolux, General Electronics (US), Panasonic, Hitachi and Toyota.

Website: [www.fstb.com.cn](http://www.fstb.com.cn)

**Demand:** To improve operation, management and quality of our products, we hope to visit leading German enterprises of household appliance and automobile manufacturers like Siemens and Mercedes-Benz; learn experience from labor-intensive companies that have successfully transformed; introduce automatic assembly technology and mechanical equipment of light industries (mainly complex automation equipment used for controller manufacturing) and composite metal application (mainly double-metal composite and silver tipped contact). We hope for long-term cooperation to gain mutual benefits through ways such as surrogate marketing, technological transfer and joint-venture production.

**Contact Information:** ZHAO ZHIQI (+86 18688801039)

E-mail: [zhaozhiqi@fstb.com.cn](mailto:zhaozhiqi@fstb.com.cn)

**(10) Foshan Shunde Meijiaer Electric Appliance Co., Ltd. NO. 010**

**Introduction:** Meijiaer Electric Appliance Co., Ltd. was established in 2007 and it focuses on manufacturing products including water dispensers, heaters and plastics for water dispensers. We now have more than 300 employees and the sales volume of 2014 was about 80 million yuan, an increase of 31.7% from 2013. Our main business is to provide core parts and master devices for water purification products of listed companies including Midea, Gree and TCL. We also own an independently designed water dispenser brand.

Website: [www.meijiaer.com](http://www.meijiaer.com)

**Demand:** Due to great market prospects for self-service commercial juice and vending machines in China, our company has urgent needs for relevant equipment and technologies. Commercial juice and vending machines will mainly be placed at airports, train stations, plazas and other public venues. We hope for long-term cooperation through ways such as surrogate marketing, technology transfer and joint-venture production.

**Contact Information:** KONG DEFENG (+86 13928810016)

PENG QIAOLIN (+86 13715468696)

**(11) Foshan Shunde Zhishang Electric Appliance Co., Ltd. NO. 011**

**Introduction:** Founded in 1991, Foshan Shunde Zhishang Electric Appliance Co., Ltd. possesses a factory of over 20,000 m<sup>2</sup>, 15 electric assembly lines, 30 high-performance production equipment imported from Korea, including chip mounters, spreaders, computer controlled reflow solder machines and lead-free dual wave solder machines. The equipment are supplemented by such testing instruments as digital oscilloscopes, spectrum analyzers, high-low temperature test chambers, digital bridges, transistor DC parameter testers, ICT online testers and lead-free testers. Our firm has set up integral systems in R&D, manufacturing, product quality and service providing. With high R&D capacity, it conducts cooperation with many domestic institutes of higher learning and other authoritative institutes. Besides, it independently develops and produces various types of power switches for home computers.

Website: [www.tuteng.cn](http://www.tuteng.cn)

**Demand:** Looking for customers of electric appliances for R&D cooperation

**Contact Information:** LI FENXIN (+86 13702342860)

E-mail: [1187579356@qq.com](mailto:1187579356@qq.com)

**(12) Guangdong Jinlian Window Fashion Co., Ltd. NO. 012**

**Introduction:** Established in 1988, Jinlian is one of the top R&D and manufacturing factories of window blinds and their components in China with over 300 employees. Our main products include Jinlian Vertical Blind, Roller Blind, Roman Shade Blind, Woven Bamboo Blind, Venetian Blind and Rainbow Blind. These products are sold to more than 80 countries including the USA and countries in Europe, Africa, Middle East and Southeast Asia. We have passed authentications of the quality management system of ISO9001, the environmental management system of ISO14001 and SGS' certification for suppliers. We also attach great importance to R&D and IPR protection, and we have registered more than 20 patents.

Website: [www.jinlianblinds.com](http://www.jinlianblinds.com)

**Demand:** To improve our product quality and production efficiency, we hope to introduce R&D technologies on curtains and their components, automated injection molding machines and automated installation facilities. We would like to form long-term cooperation with our German counterparts and automated equipment companies through different ways such as equipment purchasing, technology transfer, and joint-venture production to realize win-win results.

**Contact Information:** LUO YUMEI (+86 15820672218)

E-mail: [Jinlian16@126.com](mailto:Jinlian16@126.com)

**(13) Guangdong Lecong Steel World Co., Ltd. NO. 013**

**Introduction:** Guangdong Lecong Steel World Co., Ltd. is the operator of Lecong Steel World (LSW). LSW is under a key program for developing modern service industry in Guangdong Province and a major strategic move for urban spatial restructuring and industrial upgrading. Planned area of the program is about 4,000 mus<sup>1</sup> with 3,000 mus developed in the first phase. The program totals 10 billion Yuan in investment, with 5.5 billion invested in the initial stage. Besides, the program's annual steel trade volume reaches over 20 million tons, and its annual processing capacity exceeds 10 million tons. Within the industrial park of the program are four functional zones, the Stock Zone, the Processing Zone, the Inventory Zone and the Commercial Zone. The park perfectly combines stock trade and IT application in e-commerce, thus giving full play to cluster advantages. Such combination also further enhances LSW's position as an industrial leader, and helps LSW develop from the largest steel processing and distribution center domestically to a regional trade headquarter of a world's top steel enterprise.

**(14) Foshan Shunde Lecong Haopeng Trading Co., Ltd. NO. 014**

**Introduction:** Founded at the beginning of 2001, Foshan Shunde Lecong Haopeng Trading Co., Ltd. is located in Lecong Steel World, the largest steel processing and distribution center in South China. We mainly distribute, at home and broad, sheet materials such as hot and cool-rolled coils, medium-wide strips and narrow strips produced by Yanshan Iron and Steel Co., Ltd. We also have our own steel pipe production line. Thanks to our good reputation and pragmatic work, we have gained numerous direct clients in the Pearl River Delta, including those in Foshan, Shenzhen, Dongguan and Zhongshan. We even have clients from Gunagxi Province in industries ranging from mechanical manufacturing, auto parts, home appliances, metal processing to hardware manufacturing. Besides, we are partners of steel traders all over the country. Our annual sales exceed 150, 000 tons.

**(15) Guangdong Europol Steel Logistics Co., Ltd. NO. 015**

**Introduction:** Founded in 2005, Guangdong Europol Steel Logistics Co., Ltd. is a national high-tech enterprise. Housed in Lecong Town—the only national e-commerce trial base, it is also a large and modern third-party logistics (TPL) provider of steel that combines real logistics and e-commerce. Europol follows closely the reaction and value of the entire steel logistic business. Europol is guided by the strategic development planning of integrating three parts, i.e. the platforms (the steel supermarket stock platform, the steel information service platform, the Europol Mall sales platform and the Europol furniture platform), the services (inventory, logistic and processing services) and the finance (online loan and supply chain finance). The three parts are interwoven and integrated, each focusing on one area. Combination of the three helps form mutually reinforcing advantages among one another. On 27th January 2014, Guangdong Europol Steel Lo-A (Ticker: 002711) was officially listed on Shenzhen Stock Exchange. Europol Steel Lo-A also vigorously advances innovation in industrial chain services and strives to make progress in new programs, including online loan, online sales of steel materials in Europol Mall and steel inventory based on Internet of Things (IOT).

Website: [www.opsteel.cn](http://www.opsteel.cn)

**Demand:** Looking for steel distributors and suppliers

**Contact Information:** ZHANG JIARONG (+86 757 28906688/ 28977125)

E-mail: [214162852@qq.com](mailto:214162852@qq.com)

**(16) Foshan TIEFENG Industrial Investment Co., Ltd. NO. 016**

**Introduction:** Foshan Dafeng Co., Ltd. was founded in 1995; Foshan Tiefeng Industrial Investment Co., Ltd. was founded in 2003. Our major business is trade, processing and distribution of steel products. Our major products are steel for domestic uses including hot-rolled and cold-rolled plates, hot-rolled and cold-rolled silicon-steel sheets, galvanized sheet, color-coated sheet and section bar. Our focus is China's domestic market. Currently we have over 500 employees. Our annual sales are over 300 thousand tons and we process over 450 thousand tons of steel products annually. Our total business turnover in 2014 exceeded 2.5 billion yuan.

Website: [www.tie-feng.com](http://www.tie-feng.com)

**Demand:** To expand the scope of our business and meet demands of a wider range of customers, we are looking forward to establishing a cooperation relationship with producers, processors and sellers of steel products; introducing advanced steel processing production lines and learning hot stamping in auto sheet manufacturing (key equipment: heating furnace and mould) as well as laser butt welding (such as Nd.YAG laser welding and CO2 laser welding). We hope for long-term cooperation through ways such as surrogate marketing, technological purchase and joint-venture production.

**Contact Information:** LIANG JIANEN (+86 13928298887) ;

E-mail: [50949383@qq.com](mailto:50949383@qq.com)

**(17) Foshan Shunde Hegeng Information Technology Co., Ltd. NO. 017**

**Introduction:** Founded in 2009, our company endeavors to provide products and solutions such as internationally advanced computer-control systems as well as applications which are responsible for data collection, storage, display, and analysis of manufacturing process to equipment manufacturers and automation system integrators. Our major products include industrial control system platform, series controller and industrial information software; our major customers are domestic machinery and equipment manufacturers, system integrators and terminal manufacturers. Currently we have 40 employees and our annual turnover in 2014 was 5 million yuan, an increase of 100% compared to 2013.

Our company has passed authentication of the quality management system of ISO9001 and controller products the CE test.

Website: [www.gatherwin.com.cn](http://www.gatherwin.com.cn)

**Demand:** The industrial control system platform and series controller that we are currently manufacturing and selling are based on an industrial control platform developed by a famous German software company. We continue to look for prominent German software development platforms or enterprise software and hope to exchange with German enterprises and research institutes in this area. We hope for long-term cooperation through ways such as surrogate marketing, technology transfer and joint R&D.

**(18) Foshan Flyingfish Interconnect E-Commerce Co., Ltd. NO. 018**

**Introduction:** Foshan Flyingfish Interconnect Co., Ltd. is a leading e-commerce enterprise in Guangdong Province. From a design company to an e-commerce enterprise, and to the births of “Deerma” and “Take Fans”, two independent brands, each step of progress couldn’t have happened without our unremitting efforts and decisive policies. Along the road, Flyingfish’s three core businesses, namely the production and operation of our own brands, e-commerce operations of agent brands, and brand visual marketing service, making it the regional pioneer in this industry. We’ve collaborated with numerous well-known brands home and abroad in visual marketing and agent operation, including Vatti, Xiotin, Vanward, and Glanz. We’ve made remarkable progress and made Flyingfish a leading brand in e-commerce in Shunde.

**(20) Foshan Zongde Investment Development Co., Ltd. NO. 020**

**Introduction:** Foshan Zongde Investment Development Co., Ltd. is a holding company under Zongshen Industrial Group (ZIG) — one of the Top 500 Manufacturers of China. ZIG is a large private (high-tech) group that integrates scientific research, industrial production, sales and trade. The Group has 30 wholly-owned and holding subsidiaries, including the listed Zongshen Power. ZIG has a total asset of 13.5 billion Yuan and possesses a national technical center. It has formed partnerships with Piaggio and Selva in Italy, MTD and Harley Davidson in the US and BMW in Germany, etc. Foshan Zongde was founded on 28th January 2013 with 100 million RMB as its registered capital. Zongde invests 2.5 billion Yuan in developing Foshan German Service Center in Foshan New City's second phase of CBD. This foreign affairs center will be equipped with the most comprehensive facilities that enable the best services in China. It will also become a symbolic landmark in Sino-German Industrial Services Zone and Foshan City as a whole.

Website: [www.zongshen.cc/](http://www.zongshen.cc/)

**Demand:** We are planning to build a Sino-German cooperative platform for business, convention, training and finance, devoted to promoting the relationship of credit between financial institutes and investment enterprises, and providing convenient financial and insurance services for Chinese and German enterprises.

**(39) Nanchang Huisheng Environmental Protection and Technology Co., Ltd. NO. 040**

**Introduction:** Founded in 2006, Nanchang Huisheng Environmental Protection and Technology Co., Ltd. (Foshan Branch) is an appointed manufactory specializing in environment protection equipment in Jinangxi Province. Our technology is advanced. We have established a long-term technological cooperation relationship with several universities and scientific research institutes. With leading technologies in China, we have won a series of provincial and national technological awards. Our products mainly include LDM vertical/horizontal high voltage electrostatic precipitator, LFEF High temperature fiberglass bag for dust collecting, FGM air box pulse bag for dust collecting, FSC wet whirlwind atomizing desulfurization equipment, SNCR denitrification equipment, low-temperature SCR denitrification equipment, and HSAL ammonia desulfurization equipment (kiln exhaust desulfurization). Meanwhile, we undertake design, manufacturing, installation, and debugging of non-standard environmental protection equipment. Our products are widely used in dust and smoke control, material recovery, desulfurization, and smoke abatement in different industries such as thermal power, building materials (cement and pottery), metallurgy, chemical engineering, papermaking, grain, and medicine. Our products are fairly effective and thus are well received by our customers.

**Demand:** In order to adapt ourselves to protecting the environment, we endeavour to improve operational management and upgrade environmental protection technologies. We hope to visit German companies in the field of design, R&D and manufacturing of environmental protection equipments, as well as those advanced in the machinery industry. We hope to learn from successful cases about how labour-intensive companies upgrade and transform; to introduce advanced technologies related to dust removal, desulphuration, denitration and waste water treatment, as well as industrial automated assembling equipments and technologies; to cooperate in the forms of technology transfer, joint production, etc. We hope to share our resources with potential partners to thrive.

**(45) Shunde Deming Educate Investment Co., Ltd. NO. 050**

**Introduction:** Founded in 2003, Shunde Deming Educate Investment Co., Ltd. evolved from the former Shunde Jiaxin Education Investment Co., Ltd., with a registered capital of RMB 13.5 million. The schools we have invested in include the Secondary School Affiliated to Shunde No.1 High School (Desheng Campus), Jaixin Xishan Primary School and Shunde New City Kindergarten. The total asset value of the schools has exceeded RMB 250 million. In September 2005, Baoli Jiaxin Property Co., Ltd. sold its shares of the above three schools as well as Jiaxin Education Investment Co., Ltd. to Shunde Eagle Co., Ltd. in order to give full play to the respective advantages of each corporation. After the adjustment of shares, Eagle fully exploits its advantages in education management to help the schools develop steadily. In order to achieve better management, the board of shareholders of Deming Education agreed to change the name of the former “Jiaxin Education Investment Co., Ltd.” into Deming Education Investment Co., Ltd. In addition, all of the above three schools Deming invested in have passed evaluations and become provincial level key schools and a part of the One-stop Quality Education in Shunde New City in November 2005.

**(46) Shunde Cowinn International Investment Co., Ltd. NO. 051**

**Introduction:** Cowinn International Investment was founded in January 2006, with a registered capital of RMB 20 million. Its major shareholder Shunde Eagle Co., Ltd. invests in real estate and education. Eagle invested RMB 300 million in the Secondary School Affiliated to Shunde No.1 High School (Desheng Campus), Jaixin Xishan Primary School and Shunde New City Kindergarten, which are all provincial level key schools with quality education and they boast of an excellent reputation among the public. Cowinn has been cooperating with Singapore Asia Investment Co., Ltd. in developing European Industrial Park. The aim is to make Cowinn a more globalized company and to accelerate its integration into the global community. Our guiding policy is to develop in line with precise strategies, efficient organizations, well-established systems, smooth procedures, capable employees, strict management, prudent operation, and core technologies.
